

# Below OP — one-time WhatsApp setup

Subscribe the BelowOP app to your Dubai Property Deals number · ~1 minute

For **Jad ALCHEIKH**  
From **Rami / Emerge Digital**  
2026-05-25

**What this does** — gives the BelowOP server permission to send WhatsApp messages from your **+1 555-976-4984 (Dubai Property Deals)** number, using the templates you already approved (wa\_alert\_apartment, belowop\_alerts, etc.).

**Why now** — your WABA already has GoHighLevel connected, which is great and stays exactly as it is. We just need to *add* our app alongside it so the Below OP platform can broadcast new finds automatically.

## Steps

- 1 Open [business.facebook.com](https://business.facebook.com) on your laptop.
- 2 Make sure the business in the top-left says **"Jad Sells Dubai Business"** (click the dropdown to switch if needed).
- 3 From the left sidebar, open **WhatsApp Manager** (green WhatsApp icon).
- 4 Click **Dubai Property Deals** at the top of the WhatsApp Manager.
- 5 Open the **Account** tab → scroll down to the **App subscriptions** section (some UI versions call it "Apps" or "Connected apps").
- 6 Click **Subscribe an app** (or **+ Add**).
- 7 In the search box, paste this Meta App ID and confirm:

**1471042450592540**

(This is the app named `test` that exists inside your business — owned by you, not by us. Same one that appeared in your token-generation dropdown last week.)

### ✓ Safe to do — won't break anything

This **adds** our app alongside LeadConnector (your GoHighLevel connection). It does **not** remove or modify the LeadConnector subscription. Your existing GHL workflows, contacts, and message history continue to work exactly as they do today.

If anything looks wrong after, you can remove our app subscription from the same screen with one click — full reversal in 5 seconds.

**If you can't find "App subscriptions":** alternative path → Settings (gear icon) → **Accounts** → **WhatsApp accounts** → **Dubai Property Deals** → click the row → look for an "Apps" or "Connected apps" tab. Same goal: add app ID 1471042450592540.

**When you're done** → reply "subscribed" on WhatsApp, I'll fire a test in 30 sec.
